

**pebble**  
for godly, effective, pastoral ministries

**consultancy, mentoring, training** for church leaders

# WHY?

Our nation desperately needs church leaders who are growing in **godliness and effectiveness**: those who shepherd God's people and seek the lost "with integrity of heart and with skillful hands" (Psalm 78:72); those who are good and faithful in maximising what they have been given for the advance of the gospel (Matt. 25:21); those with a principled pragmatism which works out carefully the most effective way to love people, reach the lost and do lasting good (Titus 3:8).
