A close-up photograph of a weathered hammer with a dark, possibly metal or dark wood head and handle, resting on a light-colored wooden surface. The hammer's head is positioned towards the top left, and its handle extends diagonally across the frame. Scattered around the hammer are several nails of different sizes and types, some with flat heads and others with more complex shapes. The wooden surface shows signs of wear, with visible grain and some small debris. The lighting is dramatic, with strong highlights and shadows, emphasizing the textures of the hammer and the wood.
